Nostalgic Scandinavian design

Do you remember when the world was small and straightforward? When a puddle was an ocean? When the hill behind the last house on the street was a mountain? And when the apple grove with the ten trees was a "Tarzan forest"? We remember all this like it was yesterday. And we don't only reminisce on the happy boyhood experiences; we revive them.

Boyhood is a Danish design company. We design and produce modern design objects deriving from a fantastic boyhood ingenuity. The collections are developed by designer Jakob Burgsø who creates the objects in natural materials of high quality, mainly oak wood, from a proud Scandinavian tradition of craftsmanship.

Boyhood products perfectly matches homes, workplaces and other settings where you want to create a unique atmosphere. Not only are the design objects created to look amazing; they also inspire happy memories of good times and put a nostalgic smile on your lips.

FSC Certified Wood

Boyhood's design products are not only of high quality. They are also FSC-certified. This means that when you purchase a Boyhood design you can do so with a good conscience. FSC-certified products help securing our nature and the social conditions in the forests from which the wood comes from.

The FSC labeling is extremely important for Boyhood. With your choice to purchase a Boyhood design we can help supporting the owner of the forests who run it with respect for people, animals, and plants. Furthermore, we secure that the people who work there will get a proper education, the necessary safety equipment, and a fair wage.

Fröbel Star Christmas Ornament

As a child you probably experienced that grownups became more cheerful around Christmas time and found the energy to bake and create Christmas decorations. One of the most beloved homemade Christmas decorations is the braided, sixteen-pointed Fröbelstar, folded by strips of paper.

The star has now become a luminous memory of the childhood joy of Christmas – here made in solid oak with soft edges. It finds its natural place in the windowsill or on the Christmas table.

Tree Topper - Christmas Star

Remember standing next to the Christmas tree, looking up at the star on top of the tree, when you were younger and a whole lot shorter? The most important ornament of the Christmas tree; a symbol of the Star of Bethlehem and of all the good things that Christmas is known to bring about. Truly an object of immersion.

Now you can immerse yourself in this large, five-pointed tree-topper of solid oak with a solid brass spiral holder. Times have changed, but the feeling of fascination and great expectations is the same.
